Shrink Sleeves

BioPLAx Shrink Sleeves are custom made to the highest quality standards to suit your needs, using PLA 50 micron film. Not only does this **BioPLAx** product offer the benefits of being made from Compostable PLA films but also provides improved performance versus traditional PET films.

Options available

- cut length or continuous reel
- unprinted sleeves
- printed sleeves (flexo & digital)
- sleeves with perforation and tear strip
- lateral perforations
- double chamber sleeves
- special effects e.g. matt lacquers, UV colours etc.
- any size (min. 18mm, max. 385mm)

Applications

- container decoration
- tamper evident seals for container closures
- duo/multi-packing
- promotional packing
- 360° information labels

BioPLAx products are made exclusively from PLA compostable or Natureflex biodegradable films manufactured from sustainable resources. Compliant with EN13432 & ASTM D6400 compostability standards and FDA & EU food contact approved.
